## WELCOME LETTER

*Zadovoljstvo mi je poželjeti dobrodošlicu svim izlagačima i posjetiteljima na sedmoj Jadranskoj vojnoj zrakoplovnoj izložbi i konferenciji –ASDA 2023.*

*Ovogodišnja izložba, koja se održava pod pokroviteljstvom Vlade Republike Hrvatske i uz potporu Ministarstva obrane Republike Hrvatske privukla je do sada najveći broj domaćih i međunarodnih izlagača, brojne članove vlada, obrambene i vojne dužnosnike i stručnjake, što svjedoči o ugledu koji je ASDA postupno izgradila od svojih početaka 2011. godine.*

*Posebno sam zahvalan našem partneru i organizatoru, tvrtki TNT Productions LLC, koja je prepoznala potrebu i kvalitetu hrvatskih proizvođača vojne opreme i stvorila ovu izložbu. Njihov tim istinski je zaslužan za razvijanje odnosa i prilika za suradnju između predstavnika tvrtki i vojnih poslovnih partnera iz cijelog svijeta.*

*Nakon toliko godina, i uz podršku mnogobrojnih domaćih i međunarodnih partnera, uvjeren sam kako je izložba ASDA postala nezaobilazno izložbeno mjesto za hrvatske i strane proizvođače vojne opreme. To je posebno važno u današnjem značajno promijenjenom sigurnosnom okružju, kada se suočavamo s vrlo konkretnim sigurnosnim izazovima, koji zahtijevaju izgradnju odgovarajućih sposobnosti i održavanje dobro opremljenih snaga koje su spremne odgovoriti i očuvati sigurnost naših građana. Vjerujem da pritom i ASDA ima važnu ulogu jer predstavlja priliku za brojne susrete i razgovore prisutnih predstavnika iz područja sigurnosti i obrane iz različitih zemalja.*

*Jačanje hrvatskih tvrtki i potpora koju im pružamo pomažući im da izlažu svoje najnovije proizvode uz relevantne međunarodne partnere, od iznimne su važnosti. Njihova inovativnost, izvrsnost i proizvodi visoke kvalitete osiguravaju im sve veći broj korisnika na vrlo zahtjevnom međunarodnom tržištu, na što smo posebno ponosni.*

*Poštovani izlagači i posjetitelji, vaša potpora i sudjelovanje na izložbi ASDA 2023. za nas su vrlo važni. Uvjeren sam da je kroz prikaz obrambenih tehnoloških postignuća, ASDA 2023. mjesto dijaloga, razmjene ideja i poticanja daljnog razvoja vojne i tehničke suradnje.*

*Vjerujem kako će ASDA nastaviti pridonositi promicanju hrvatske i međunarodne vojne industrije sa zajedničkim ciljem podizanja razine europske i globalne sigurnosti.*

**S poštovanjem,**  
**dr.sc. Mario Banožić**  
**ministar obrane**

## WELCOME LETTER

*It is my pleasure to welcome all the exhibitors and visitors of the seventh Adriatic Military Aviation Exhibition and Conference - ASDA 2023.*

*This year's exhibition, which is held under the auspices of the Government of the Republic of Croatia and with the support of the Ministry of Defense of the Republic of Croatia, attracted the largest number of domestic and international exhibitors, members of the government, defense and military officials and experts, which is a proof that the reputation of ASDA has gradually built up since its beginnings in 2011.*

*I am especially grateful to our partner and organizer, TNT Productions LLC, which recognized the quality of Croatian military equipment manufacturers and established this exhibition. Their team is truly responsible for creating opportunities and developing relationships and collaboration between company representatives and military business partners around the world.*

*After so many years, and with the support of various domestic and international partners, I am convinced that the ASDA exhibition has become an indispensable exhibition place for Croatian and foreign manufacturers of military equipment. This is especially important in today's significantly changed security environment, when we face very specific security challenges, which require building appropriate capabilities and maintaining well-equipped forces that are ready to respond and keep our citizens safe. I believe that ASDA also plays an important role in this, as it represents an opportunity for a number of meetings and fruitful discussions between security and defense experts.*

*The strengthening of Croatian companies and the support we provide by helping them exhibit their latest products alongside relevant international partners is of utmost importance. Their innovation, excellence and high-quality products ensure an increasing number of users on a very demanding international market, which we are particularly proud of.*

*Dear exhibitors and visitors, your support and participation in the ASDA 2023 exhibition is very important to us. I am convinced that through the display of defense technological achievements, ASDA 2023 is a place for dialogue, exchange of ideas and encouragement of further development of military and technical cooperation.*

*I believe that ASDA will continue to contribute to the promotion of the Croatian and international military industry with the common goal of improving the European and global security.*

**Respectfully,**  
**Ph. D. Mario Banožić**  
**Minister of Defense of the Republic of Croatia**

## WELCOME LETTER

Poštovani izlagači i posjetitelji, dragi prijatelji

Drago mi je da smo se po sedmi puta našli u Hrvatskoj, na Jadranskoj vojnoj zrakoplovnoj izložbi i konferenciji – ASDA 2023. koja je od 2011. uvrštena u kalendar međunarodnih vojnih izložbi, a u svakom svom sljedećem izdanju bilježi sve veći broj posjetitelja i izlagača kako iz zemlje tako i inozemstva.

Naš je strateški cilj mir te sigurno i stabilno okružje, te dobri i prijateljski odnosi sa svima, posebno s našim susjedima. Naša primarna misija je obrana, ali i doprinos međunarodnoj stabilnosti i miru. Odvraćanje i obrana temeljni su postulati nacionalne i kolektivne obrane. Sposobnosti za obranu razvijaju se suradnjom sa saveznicima i partnerima.

Dinamično i intenzivno promjenjivo sigurnosno okružje postavljaju nove izazove pred nas vojниke. Intenzivna primjena novih tehnologija obvezuje vojske na značajne promjene planova modernizacije i nabave. U svim domenama potreban je iskorak prema novim tehnologijama, a on se ne ostvaruje samo kroz nabavu novih sustava naoružanja i opreme već i kroz stjecanje znanja i vještina u uporabi i održavanju tih sustava. Naši daljnji napor moraju biti usmjereni na intenzivnu modernizaciju za razvoj sposobnosti odgovora na klasične vojne prijetnje, ali i na nove prijetnje koje danas tek možemo predvidjeti i naslutiti. Nelegalna, neopravdana, brutalna ruska agresija na Ukrajinu, pokazuje da smo, zajedno sa saveznicama, ispravno trasirali put obrambene transformacije. To se odnosi prije svega na primjenu novih tehnologija i inovacija u sustavima naoružanja, ali i novi pristup pripremi novih generacija vojnika, kao i novih strategija, taktika i doktrina.

Hrvatska vojna industrija opskrbljuje hrvatske vojниke pouzdanom, visokokvalitetnom i namjenski proizvedenom opremom i naoružanjem. Jedan dio tih proizvoda rezultat je zajedničkog razvoja hrvatske vojne industrije i stručnih timova Ministarstva obrane i OSRH, dok je drugi dio rezultat višegodišnjeg proizvodnog iskustva kojim raspolažu hrvatske tvrtke. ASDA je mjesto koje omogućuje poslovno povezivanje između proizvođača vojne opreme, obrambenih resora i oružanih snaga kao njihovih korisnika.

Uvjeren sam kako će Zadar u sljedećih nekoliko dana biti središte inovativnog promišljanja i tehnoloških rješenja koja će pridonijeti jačanju otpornosti na krize suvremenog doba.

U ime pripadnika Hrvatske vojske zahvaljujem organizatoru izložbe, svim izlagačima i partnerima koji su svojim trudom doprinijeli uspješnosti sedmog izdanja izložbe ASDA.

**admiral Robert Hranj  
načelnik Glavnog stožera Oružanih snaga Republike Hrvatske**

## WELCOME LETTER

7<sup>th</sup> Edition

Distinguished exhibitors and visitors, dear friends,

*It is a privilege to welcome and host all of you for the seventh time in Croatia, on occasion of the Adriatic Sea Defense and Aerospace Exhibition and Conference – ASDA 2023. As an international biennial expo, since 2011 ASDA has persistently developed and expanded its audience of exhibitors and visitors worldwide.*

*The strategic goal of the Republic of Croatia is peace, security and stability, and good and friendly relationships with other nations, especially with our neighbors. For the Armed Forces of*

*Croatia their main mission is defense of the nation, along with contribution to international peace and stability. Deterrence and defense are the fundamental principles of our national and collective defense. In that we try to develop and enhance the needed capabilities in cooperation with allies and partners.*

*The dynamic and changing security environment is constantly setting up new challenges for our defense forces. Fast and continuous introduction of new technologies in almost all aspects of our lives also immensely influences the military world and, among other things, requires significant changes of our defense modernization and procurement plans. Accepting new technologies is not an option but a necessity, as it almost instantly influences all military domains. Search for and development of new weapon systems and equipment is important but not the only answer to that. Today, arguably more than ever, it means a new approach to developing new generations of military leaders and soldiers. Russian illegal and unjustified aggression to Ukraine brutally presents novelties of the character of modern warfare, reminding us that we must continuously correct and steer our defense transformation. In addition to the implementation of new technologies, it must include innovative approaches to military training, as well as new strategies, tactics and doctrines.*

*Croatian defense industry provides reliable, high-quality and specifically designed equipment and weapons. The products come as a result of teamwork of the domestic defense industrial capacities and defense expert teams of the Ministry of Defense and the Croatian Armed Forces, but they are also the result of a longstanding manufacturing experience. ASDA is a venue that connects military industries and defense sectors to the armed forces as end users.*

*I believe, that during the ASDA week, Zadar will be the center of creative thinking and technological solution that will enhance our collective resilience to the crises of the contemporary era.*

*On behalf of the Croatian Armed Forces, I would like to thank the organizers of the event as well as all the exhibitors and partners who contributed to the success of the seventh edition of ASDA.*

**Admiral Robert Hranj**  
**Chief of General Staff of the Croatian Armed Forces**

2023

Adriatic Sea Defense & Aerospace  
EXHIBITION & CONFERENCE

7<sup>th</sup> Edition

## WELCOME LETTER

Dragi izlagači i posjetitelji,

u ime Organizacijskog odbora ASDA 2023 želim Vam srdačnu dobrodošlicu na sedmu Jadransku vojnu i zrakoplovnu izložbu i konferenciju.

Čast mi je i zadovoljstvo što ste naši gosti u Zadru, gradu bogate povijesti i s mnoštvom kulturne baštine i što je upravo Športski centar Višnjik izabran kao nova lokacija za predstavljanje potencijala i kapaciteta široke skupine domaćih i stranih proizvođača naoružanja i vojne opreme te dobavljača za potrebe obrane.

Želim naglasiti činjenicu da izložba ASDA sve više dobiva na značaju te je postala važna i prepoznatljiva obrambena izložba daleko izvan granica jugoistočne Europe. Ove će godine više od 200 izlagača biti u mogućnosti predstaviti najnovija kretanja, tehnike i tehnološka dostignuća u području obrane te raspraviti o mogućim oblicima buduće suradnje ili zajedničkih projekata.

Od posljednje izložbe, sigurnosno okružje u Europi značajno se promijenilo. Ničim izazvana ruska vojna agresija i invazija na Ukrajinu ukazala je na potrebu većeg ulaganja u oružane snage i obrambenu industriju. Stoga smo posebno svjesni važnosti razvoja domaćih obrambeno industrijskih kapaciteta, kao i jačanja autonomije EU i EU obrambeno tehnološke i industrijske baze. Republika Hrvatska jedina je članica NATO-a i Europske unije koja je i sama bila žrtva brutalne vojne agresije. Bilo je izazovno razviti hrvatsku obrambenu industriju do te mjere da bude sposobna u potpunosti opremiti hrvatske vojниke, no obrambena industrija Republike Hrvatske danas se ističe s nekoliko prepoznatljivih imena na svjetskoj sceni proizvođača oružja i vojne opreme te privlači pažnju i interes brojnih kupaca.

Stoga moram izraziti zadovoljstvo pozitivnim odazivom hrvatskih izlagača obrambene industrije na ASDA 2023. Nadamo se da će i ova ASDA izložba pomoći vodećim domaćim tvrtkama u umrežavanju, stvaranju odnosa i novih poslovnih prilika.

Moje je iskreno uvjerenje da će sudjelovanje svih izlagača na ASDA-i biti od koristi ne samo za razvoj partnerstva, već i za obrambenu i sigurnosnu suradnju, čime dajete doprinos jačanju mira i sigurnosti.

Kao predsjednik Organizacijskog odbora posebno zahvaljujem organizatorima ovog događaja – tvrtki TNT Productions LCC kao i svakom pojedincu na naporu koji su uložili kako bi osigurali uspjeh sedme Jadranske vojne i zrakoplovne izložbe i konferencije. U nadi da će izložba biti uspješna, srdačno vas pozdravljam, a svim gostima i sudionicima od srca želim što bolje poslovne rezultate te da provedu ugodno vrijeme u predivnom gradu Zadru.

S poštovanjem,

Ravnatelj uprave za materijalne resurse

Ivica Grebenar

## WELCOME LETTER

Dear exhibitors and visitors,

On behalf of the ASDA 2023 Organizing Board, I wish you a warm welcome to the seventh Adriatic Sea Defence and Aerospace Exhibition and Conference.

*It is an honour and a pleasure to have you as our guests in Zadar, a city rich in history and with a lot of cultural heritage, and that the Sports Centre Višnjik was chosen as a new location and has provided an ideal venue for presenting the potential and capacity of the broad assembly of domestic and foreign armament and military equipment manufacturers and suppliers for defence needs.*

*I would like to emphasize the fact that the ASDA Exhibition has grown and become a significant and recognizable defence exhibition far beyond the Southeast Europe borders. This year, more than 200 exhibitors will be able to present the latest trends, techniques and technological achievements in the field of defence, as well as discuss possible future cooperation or collaborative projects.*

*Since the last exhibition, the security environment in Europe has changed significantly. The unprovoked Russian military aggression and invasion of Ukraine indicated the need for greater investment in the armed forces and the defence industry. Therefore, we are particularly aware of the importance of developing domestic defence industrial capacities, as well as strengthening the autonomy of the EU and the EU defence technological and industrial base. The Republic of Croatia is the only member of NATO and the European Union that itself was a victim of brutal military aggression. It has been a tremendous challenge to develop the Croatian defence industry to the extent of being capable to fully equip Croatian soldiers. Nowadays, the defence industry of the Republic of Croatia stands out with several recognizable names on the world stage of arms and military equipment manufacturers and attracts the attention and interest of numerous customers.*

*Therefore, I must express my satisfaction with the positive response of Croatian defence industry exhibitors at ASDA 2023. We hope that this ASDA Exhibition will also help leading domestic companies in networking, creating relationships and new business opportunities.*

*It is my sincere belief that the participation of all exhibitors at ASDA will be beneficial not only for the development of partnership, but also for defence and security cooperation, thereby contributing to the strengthening of peace and security.*

*As the Head of the Organizing Board, I would like to especially thank the organizers of this event - the TNT Productions LCC company as well as every individual for the effort they invested in order to ensure the success of the seventh Adriatic Sea Defence and Aerospace Exhibition. With a strong belief that the exhibition will be successful, I warmly greet you, and sincerely wish all the guests and participants a great success and pleasant time in the wonderful city of Zadar.*

**Sincerely,**  
**DIRECTOR**  
**Ivica Grebenar**

2023

Adriatic Sea Defense & Aerospace  
EXHIBITION & CONFERENCE

7<sup>th</sup> Edition

## WELCOME LETTER

*Poštovani izlagači i posjetitelji:*

*U ime organizacijskog odbora i osoblja TNT Production, zadovoljstvo nam je poželjeti Vam dobrodošlicu na ovom svečanom otvoranju izložbe pod nazivom Adriatic Sea Defense and Aerospace Exhibition – ASDA 2023.*

*Od početka civilizacije, narodi iz svih svjetskih kultura, povjeravali su svojoj vlasti na odgovornost da osigura njihovu unutarnju i vanjsku sigurnost.*

*Tehnike i tehnologija potrebna za postizanje te sigurnosti neprestano se mijenjaju, ali potreba za sigurnosću ostaje uvijek prisutna.*

*Na izložbi sudjeluje više od 205 izlagača iz 30 vdržave. Pozdravljamo sve izlagače koji su došli pokazati najnovije tehnike i tehnologije za postizanje sigurnosti. Također pozdravljamo i brojne dolaske delegacije Ministarstva obrane, na ovu izložbu i u ovaj prekrasan grad Zadar.*

*Organizacija ovakovog događaja zahtjeva veliku suradnju i ogromnu količinu rada. Stoga koristim ovu priliku da se zahvalim svim osobama i organizacijama koje su vrijedno radile u stvaranju ove izložbe.*

*Posebno želimo zahvaliti našem domaćinu Ministarstvu obrane Republike Hrvatske, upravi grada Zadra i naravno, upravljačkom timu Športski Centar Višnjik d. o. o..*

*Također bismo željeli zahvaliti Američkom Veleposlanstvu u Zagrebu te cijelom osoblju i dobavljačima na iznimnom radu kako bi napravili ovo svečano otvorenje.*

*Bez pomoći i podrške svih ovih ljudi i organizacija ova izložba ne bi bila moguća.*

*Najtoplje i najiskrenije vam se zahvaljujemo.*

*Hvala Vam.*

**Justin Webb**  
**President**  
**TNT Productions, LLC.**

# **WELCOME LETTER**

*Dear Exhibitors & Visitors:*

*On behalf of the organizing committee and staff of TNT Productions, we would like to welcome you all to the sixth edition of the Adriatic Sea Defense and Aerospace Exhibition and Conference – ASDA 2023.*

*Since the dawn of civilization, societies from all of the world's cultures have entrusted their governments with the responsibility to provide for their internal and external security. The techniques and technologies required to achieve this security are constantly changing, but the need is never changing.*

*Participating in this exhibition are more than 205 companies from 30 different countries. We welcome all of these companies who are displaying many of the most recent techniques and technologies for achieving this security. We also welcome the many visiting Ministry of Defense delegations to the exhibition and to the beautiful city of Zadar.*

*Organizing an event like this takes a lot of cooperation and an enormous amount of work, and I would like to take this opportunity to thank the people and organizations that worked very hard to help to create this exhibition.*

*In particular we would like to thank our host the Ministry of Defence of the Republic of Croatia, the administration of the City of Zadar and of course the management team of the Sports Center Višnjik d.o.o.*

*We would also like to thank the US Embassy in Zagreb and all of our staff and suppliers in Croatia who have worked incredibly hard to create this seventh edition.*

*Without the help and support of all of these people and organizations, this exhibition could not have been possible.*

*We give you our warmest and most sincere thanks.*

*Thank you.*

**Justin Webb  
President  
TNT Productions, LLC.**

## 3D GRUPA - KLASTER 3D TEHNOLOGIJA

### STAND 1711 | HALL A

**Industrijska 3 - Novaki  
HR-10431 Sveta Nedelja | CROATIA**

**Phone: +385 1579 0750  
[www.3d-grupa.com](http://www.3d-grupa.com)**

As a regional reference center, by implementing 3D technologies and supporting the industry, we increase the innovation and competitiveness of the industry and other activities related to development and production, and provide support and information about new technologies.

An expert team of members of the 3D group with many years of experience in the use of 3D technologies will help you realize your projects.

Kao regionalni referentni centar implemetacijom 3D tehnologija i podrškom industriji podizemo inovativnost i konkurentnost industrije i drugih djelatnosti vezanih uz razvoj i proizvodnju te pružamo podršku i informacije o novim tehnologijama.

Ekspertni tim članica 3D grupe s dugogodišnjim iskustvom u korištenju 3D tehnologija pomoći će Vam u realizaciji Vaših projekata.

## 4X4 PERFORMANCE D.O.O.

### STAND B215 | HALL B

## AERO VODOCHODY AEROSPACE, A. S.

### STAND 827 | HALL A

**U Letiště 374  
CZ-25070 Odolena Voda | CZECH REPUBLIC**

**Phone: +420 255 762 852; +420 731 135 151  
[www.aero.cz](http://www.aero.cz)**

Aero is historically the world's largest jet training aircraft manufacturer with more than 11,000 produced aircraft and over 13,000,000 flight hours total log of the fleet.

Aero is the largest aviation company in the Czech Republic and the one of the oldest in the world – established in 1919.

Aero produced more than 6,700 own design jet training aircraft, which equals to 70% of the world production.

Aero aircraft operates in all continents and any climatic conditions.

Aero je povijesno najveći svjetski proizvođač zrakoplova za obuku mlaznjaka s više od 11.000 proizvedenih zrakoplova i preko 13.000.000 sati leta ukupnim dnevnikom flote.

Aero je najveća zrakoplovna tvrtka u Češkoj i jedna od najstarijih na svijetu – osnovana 1919. godine.

Aero je proizveo više od 6.700 zrakoplova za obuku mlaznjaka vlastitog dizajna, što je jednako 70% svjetske proizvodnje.

Aero zrakoplovi djeluju na svim kontinentima i svim klimatskim uvjetima.

## AEROFINA S.A.

### STAND B411 | HALL B

**2-4 Fabrica de Glucoza Street  
RO-020332 Bucharest | ROMANIA**

**Phone: +40 212 420 772 | Fax: +40 212 420 444  
[www.aerofina.ro](http://www.aerofina.ro)**

Aerofina is a company founded in 1980 with entirely Romanian capital that runs programs of research and design, production, testing and evaluation, maintenance and integrated customer support for life-saving equipment, electronic devices, pyrotechnical elements and aviation ammunition for military systems.

It participates in all major Romanian aviation programs such as IAR 316, IAR 330 PUMA, IAR 330 PUMA SOCAT, MiG 21 LANCER, IAR 99 ST and IAR 99 SOIM. Main products: ejection seat SCHV-0, flight data recorders with static memories, electronic time fuses for illuminating bombs, aviation ammunition 20 x 102 mm, on board equipment for military aircrafts, pyrotechnical elements.

Aerofina je tvrtka osnovana 1980. s potpuno rumunjskim kapitalom koja vodi programe istraživanja i dizajna, proizvodnje, testiranja i evaluacije, održavanja i integrirane korisničke podrške za opremu za spašavanje, elektroničke uređaje, pirotehničke elemente i zrakoplovno streljivo za vojsku sustava.

Sudjeluje u svim većim rumunjskim zrakoplovnim programima kao što su IAR 316, IAR 330 PUMA, IAR 330 PUMA SOCAT, MiG 21 LANCER, IAR 99 ST i IAR 99 SOIM. Glavni proizvodi: izbacivo sjedalo SCHV-0, snimači podataka o letu sa statičkim memorijama, elektronski vremenski upaljač za svjetleće bombe, zrakoplovno streljivo 20 x 102 mm, oprema za vojne zrakoplove, pirotehnički elementi.

## ALFATEC GROUP

**STAND B611 | HALL B**

**Tuškanova 37**  
**HR- 10000 Zagreb | CROATIA**

**Phone: +385 1604 0077**  
**[www.alfatec.ai](http://www.alfatec.ai)**

Alfatec Group is a modern private company specialized in data. For more than 30 years we've been building this expertise, and deepening the knowledge so they could lead their clients on a path of change and growth. Using cutting-edge AI & ML technology, we innovate and create simple-to-use, fast, efficient, and secure products that keep our users deep in the know, and help them discover actionable insights, make precise decisions, and visualize their next business step. With the help of technology and possessed knowledge, we connect every bit of valuable information into one bigger and clearer vision.

Our expertise in the development of relevant software tools, products, and solutions was recognized by European Union, approved and funding their "Hydrogen Battlefield Reconnaissance and Intelligence Drone" (HYBRID) project in development with Delair, our French partner, and Greek partner via European Defense Fund (EDF).

Alfatec's homeland security division brings many years of experience in the field. Our dedicated, reliable, highly professional experts implement the latest technology to back up all operations. Our pride is in long-lasting cooperation with partners, helping them adapt to the best global homeland security practices.

Alfatec company and their experts have security level certificates classified EU/NATO secret.

Alfatec Group je moderna privatna tvrtka specijalizirana za podatke. Više od 30 godina gradili smo ovu stručnost i produbljivali svoje znanje kako bi mogli povesti svoje klijente na put promjene i rasta. Koristeći najsuvremeniju AI & ML tehnologiju, inoviramo i stvaramo jednostavne za korištenje, brze, učinkovite i sigurne proizvode koji našim korisnicima pružaju duboke informacije i pomažu im otkriti korisne uvide, donijeti precizne odluke i vizualizirati svoje sljedeće poslovni korak. Uz pomoć tehnologije i posjedovanog znanja svaku vrijednu informaciju povezujemo u jednu veću i jasniju viziju.

Našu stručnost u razvoju relevantnih softverskih alata, proizvoda i rješenja prepoznala je Europska unija, odobrila njihov projekt «Hydrogen Battlefield Reconnaissance and Intelligence Drone» (HYBRID) u razvoju s francuskim partnerom Delairom i grčkim partnerom te financirala putem Europskog fonda za obranu (EDF).

Alfatecov odjel za domovinsku sigurnost donosi dugogodišnje iskustvo na tom području. Naši posvećeni, pouzdani, visoko profesionalni stručnjaci implementiraju najnoviju tehnologiju za sigurnosnu potporu svih operacija. Ponosni smo na dugogodišnju suradnju s partnerima, pomažući im u prilagodbi najboljim svjetskim praksama domovinske sigurnosti.

Tvrta Alfatec i njeni stručnjaci posjeduju certifikate sigurnosne razine klasificirane kao EU/NATO tajna.

## ANDRES INDUSTRIES AG

Battle tested, NATO approved, Berlin made. Thermal imagers from Andres Defence

Andres Industries is a developer and manufacturer of thermal imaging devices based in Berlin. With its in-house Defence branch, the company has specialized in the development of particularly compact and robust thermal clip on devices for law enforcement agencies and armed forces worldwide.

The product portfolio includes:

- TILO™: smallest thermal imaging goggles
- TigIR™: shortest clip on device with 55m lens and 3000m detection range
- PumIR™: modular clip on with detection ranges between 2000 and 4000m

The product portfolio can be adapted to individual requirements at short notice and is continuously updated.

## AVIOANE CRAIOVA S.A.

**STAND B411 | HALL B**

**Aviatorilor Street, no 10  
RO-207280 Ghercesti | ROMANIA**

**Phone: +40 251 402 000 | Fax: +40 251 435 153**

**[www.acv.ro](http://www.acv.ro)**

Established in 1972, AVIOANE CRAIOVA S.A. initiates its activities in aircraft manufacturing with IAR-93, a two-engine, subsonic, air – to ground attack aircraft. The company played a vital role in development of this aircraft, that served Romanian Air Force until 1999. IAR – 99 is the second large project AVIOANE CRAIOVA contributes in developing and fabrication. First flight of the IAR – 99 Standard version, in December 1985, was the beginning of a great story. Currently, IAR-99 SM is the program that transforms the Standard configuration into advanced trainer.

Avioane Craiova is looking forward to up-grade the IAR-99 SOIM version configuration to improve its current CAS capability as well as extend its lifetime. Avioane Craiova is permanently interested in products and services range extension and co-operation with other companies as well, in order to develop adequate programs, according to our technical and technological capabilities.

Our company is open to cooperation in the aerospace industry. We can provide a wide range of products and services for military and civil aircrafts, structures assemblies, spare parts, tool, jigs and testers.

Osnovana 1972. godine, AVIOANE CRAIOVA S.A. pokreće svoje aktivnosti u proizvodnji zrakoplova s IAR-93, dvomotornim, podzvučnim, zračnim - za zemaljske napadne zrakoplove. Tvrta je odigrala ključnu ulogu u razvoju ovog zrakoplova, koji je služio rumunjskom ratnom zrakoplovstvu do 1999. IAR – 99 je drugi veliki projekt AVIOANE CRAIOVA doprinosi razvoju i izradi. Prvi let verzije IAR – 99 Standard, u prosincu 1985., bio je početak velike priče. Trenutno je IAR-99 SM program koji standardnu konfiguraciju pretvara u naprednog trenera.

Avioane Craiova radi se vrhunskoj konfiguraciji verzije IAR-99 SOIM kako bi poboljšala svoju trenutnu CAS sposobnost, kao i produžila svoj vijek trajanja. Avioane Craiova trajno je zainteresirana za proširenje asortimana proizvoda i usluga te suradnju i s drugim tvrtkama, kako bi se razvili adekvatni programi, u skladu s našim tehničkim i tehnološkim mogućnostima.

Naša tvrtka otvorena je za suradnju u industriji zračnog prostora. Možemo pružiti široku paletu proizvoda i usluga za vojne i civilne zrakoplove, sklopove konstrukcija, rezervne dijelove, alate, jigove i testere.

## AXON' CABLE

**Phone: +385 4037 9400 | Fax: +385 4032 8445  
[www.cateks.hr](http://www.cateks.hr)**

**ČATEKS**

Čateks draws its tradition of excellence in textiles since the early days of 1874. Generations of its employees have given their best to satisfy the ever changing needs for dependable products that help people feel safe and protected. A good part of Čateks's history has evolved around the products for civilian market. Historical circumstances have made Čateks an expert in defense textiles and uniform procurement as well. Čateks has more than a decade of experience of production of CORDURA® NYCO fabrics and is proud to be listed among the very few of CORDURA® Authorized Mills. The company continues to supply both the Croatian Army and the Police with fabrics and finished uniforms ever since, but this experience is used with constantly growing success in both advanced materials and camo pattern prints to compete on the demanding international market. Čateks's design department is well versed in developing entirely new camos based on clients wishes and particularities of the area in which the camo should provide concealment - both in visible and IR spectrum. Čateks is the supplier of fabrics for a number of armies and law enforcement organizations and a selection of worldwide tactical equipment manufacturers. 100% CORDURA® (fabrics, coatings and laminates) in 500D, 1000D and other qualities are as of recently also available from our extensive lineup. Whether printed or in solid color, these materials are a prime choice for ballistic items, backpacks, pouches and other products requiring extreme durability in the face of adverse deployment and weather conditions. Čateks consists of 3 production centers: a) PC Textiles - weaving, printing, dyeing and finishing of textile fabrics b) PC Coating and Lamination - production of coated and laminated materials for a wide range of purposes c) PC Cut&Sew - production of garments, medical confection and homeware This vertical integration enables its clients to get the best value for their money in the shortest timeframe possible. For all your military and law enforcement garment questions - Čateks is the right answer.

Čateks se ponosi tradicijom izvrsnosti u tekstilijama od davne 1874. godine. Generacije naših zaposlenika su pružale sve od sebe da zadovolje rastuće zahtjeve za pouzdanim proizvodima koji pružaju sigurnost i samopouzdanje. Veliki dio Čateksove povijesti je vezan uz proizvodnju za civilno tržište. Međutim, povjesne okolnosti su od Čateksa stvorile ekspertnu kompaniju za tekstilije i finalne proizvode u obrambenom sektoru. Čateks raspolaže sa višegodišnjim iskustvom u proizvodnji CORDURA® NYCO tkanina i ponosi se da se nalazi na kratkom popisu ovlaštenih CORDURA® tkalaca u Europi. Čateks kontinuirano opskrbљuje OSRH i hrvatsku policiju sa tekstilijama i gotovim uniformama od početaka razvoja tog programa, a ta iskustva se koriste u stalnom razvoju naprednih materijala i prikrivnih uzoraka na zahtjevnom međunarodnom tržištu. Interni dizajn studio raspolaže velikim iskustvom u razvoju potpuno novih prikrivnih uzoraka prema klijentovim traženjima i posebnostima okoliša na kojem treba ostvariti prikrivanje - u vizualnom i u infracrvenom spektru. Tvrta je dobavljač tkanina za cijeli niz vojski i redarstvenih službi diljem svijeta, kao i niza proizvođača taktičke opreme. 100% CORDURA® (tkanine, prevučene tkanine i laminati) u 500D, 1000D i drugim kvalitetama su također odnedavno raspoložive kao dio našeg širokog proizvodnog asortimana. Bilo u tiskanom ili bojanom obliku, ovi materijali su prvaklasi izbor za balističke artikle, ruksake, torbe i druge proizvode koji traže vrhunsku izdržljivost prilikom zahtjevnih operativnih i vremenskih uvjeta. Čateks raspolaže sa 3 proizvodna centra: a) PC Tekstil - tkanje, tisak, bojanje i dorada tekstilija b) PC Prevlačenje i laminacija - proizvodnja prevučenih i laminiranih materijala širokog područja primjene c) PC Konfekcija - proizvodnja odjevnih predmeta, medicinske konfekcije i kućanskih artikala Ovakva vertikalna integracija omogućuje našim klijentima dobivanje najbolje vrijednosti za novac i isporuku u najkraćem roku. Za sva pitanja vojnih i redarstvenih tekstilija i uniformi - Čateks je pravi odgovor.

**GALKO**MPS

Phone: +385 914 465 001

[www.galko-mps.com](http://www.galko-mps.com)

Established in 1993 as a small family business, driven by a passion for leather products and recognized by the customers for uncompromised quality level and attention to details. The company has constantly grown and evolved, investing in new technologies, machinery and most important – skilled employees in both the R&D and production department. In 2021. we are proud to present GALKO MPS – a highly specialized company segment for research and development, production and distribution of professional defense, law enforcement and security equipment. Brand new MPS (Military/Police/Security) product line with more than 50 products includes combat/tactical platforms (vests, belts, backpacks) and components (pouches, carriers, holsters, bags) that are intended be used separately or as a part of an integrated equipment system for soldiers, police officers, security officers or any similar duty activity. Implementation of the latest market trends in production technologies such as laser cutting, usage of special laminates or bonded fabric compositions, thermoforming technologies and production digitalization brings new products, new look and functionality, fresh energy, cost-effectiveness and finally a well-established and reliable product portfolio of equipment with exquisite quality level and functionality. Implementation of the latest market trends in production technologies such as laser cutting, usage of special laminates or bonded fabric compositions, thermoforming technologies and production digitalization brings new products, new look and functionality, fresh energy, cost-effectiveness and finally a well-established and reliable product portfolio of equipment with exquisite quality level and functionality. Customers or end-users have an option to choose from our existing pre-developed line of products or decide to take custom approach and to engage into an individual R&D session with our constructors and engineers in order to create fully custom product solutions for more precision and detailedness. Our equipment is built to answer all your service calls and to work together with your needs in any environment. Solutions beyond!

Osnovana 1993. godine kao malo obiteljsko poduzeće, vođeno strašću prema kožnim proizvodima koje su kupci prepoznali po beskompromisnoj razini kvalitete i posvećenosti detaljima. Tvrta je neprestano rasla i razvijala se, učajući u nove tehnologije, strojeve i što je najvažnije – kvalificirane zaposlenike u odjelu istraživanja i razvoja i proizvodnji. U 2021. s ponosom predstavljamo GALKO MPS – visoko specijalizirani segment tvrtke za istraživanje i razvoj, proizvodnju i distribuciju profesionalne obrambene, policijske i sigurnosne opreme. Potpuno nova linija proizvoda MPS (Military/Police/Security) s više od 50 proizvoda uključuje borbene/taktičke platforme (prsluke, remenje, ruksake) i komponente (torbice, nosiljke, futrole, torbe) koje su namijenjene za upotrebu zasebno ili kao dio integriranog sustava opreme za vojnike, policajce, zaštitare ili bilo koje slične aktivnosti na dužnosti. Implementacija najnovijih tržišnih trendova u proizvodnim tehnologijama kao što su lasersko rezanje, uporaba posebnih laminata ili spojenih tkanina, tehnologije termoformiranja i digitalizacija proizvodnje donosi nove proizvode, novi izgled i funkcionalnost, svježu energiju, isplativost i konačno dobro uspostavljen i pouzdan proizvodni portfelj opreme s izvrsnom razinom kvalitete i funkcionalnosti. Implementacija najnovijih tržišnih trendova u proizvodnim tehnologijama kao što su lasersko rezanje, uporaba posebnih laminata ili spojenih tkanina, tehnologije termoformiranja i digitalizacija proizvodnje donosi nove proizvode, novi izgled i funkcionalnost, svježu energiju, isplativost i konačno dobro uspostavljen i pouzdan proizvodni portfelj opreme s izvrsnom razinom kvalitete i funkcionalnosti. ## KONGSBERG DEFENCE & AEROSPACE AS

KONGSBERG

### STAND 317 | HALL C

P.O. Box 1003  
NO-3601 Kongsberg | NORWAY

Phone: +47 3228 8200  
[www.kongsberg.com/kda](http://www.kongsberg.com/kda)

KONGSBERG is an international technology corporation that delivers advanced and reliable solutions that improve safety, security and performance in complex operations and during extreme conditions.

KONGSBERG works with demanding customers in the global defence, maritime, oil and gas and aerospace industries. KONGSBERG's solutions contribute to safer, more efficient operations at sea, on land and in space. Whether we are talking about defence, the merchant marine, the exploitation of oil and gas resources or fisheries resources, our products are of strategic importance to our customers.

We also supply technological solutions for global challenges such as environmental monitoring and resource management.

KONGSBERG is Norway's premier supplier of defence and aerospace-related systems. The portfolio comprises products and systems for command and control, weapons guidance and surveillance, communications solutions and missiles.

KONGSBERG also makes advanced composites and engineering products for the aircraft and helicopter market.

Phone: +385 1377 2777  
[www.krokotactical.com](http://www.krokotactical.com)

RESEARCH. INNOVATE. DEVELOP. ENHANCE

This has been our RIDE since 1961 when KROKO was founded and started as a high-end leather goods producer. The focus has been and stayed the same - listening to the needs of end-users and investing in development and new technologies. During the 90s, we focused on the manufacture of tactical equipment for professionals, and in 2021 we entered the retail market, leveraging the accumulated knowledge and skills into the development of new collections available to everyone.

Tvrtka sa višegodišnjim iskustvom u proizvodnji vojne i policijske opreme.

Od samih začetaka davne 1961. godine u području kožne galerije fokus je osluškivati potrebe krajnjih korisnika te ulagati u razvoj i nove tehnologije. U skladu s navedenim tvrtka se 1991. godine preusmjerila na proizvodnju taktičke opreme za profesionalne korisnike, a 2021. godine, izlaskom na maloprodajno tržiste, stečena znanja i vještine koristi pri razvoju novih outdoor kolekcija dostupnih i namijenjenih svima.

L3Harris is tackling tomorrow's defense challenges with urgency and precision.

Built on more than a century of innovation, L3Harris has its roots in both the entrepreneurial spirit of the Industrial Revolution and the earliest days of the space program.

As threat environments change, the technology that keeps our world secure must move from conception to execution even faster. On both strategic and tactical fronts, the solutions ensuring a safer tomorrow are being developed at L3Harris today.

Breakthroughs and technological advancements have shaped who we are today and the world around us.

At L3Harris we anticipate and mitigate risk with end-to-end solutions that meet our customers' mission-critical needs across all domains.

## NAMMO AS

**STAND 317 | HALL C**

**P.O. Box 162  
NO-2831 Raufoss | NORWAY**

**Phone: +47 6115 3600**

**[www.nammo.com](http://www.nammo.com)**

NAMMO is an international aerospace and defence company headquartered in Norway. With over 2.700 employees across more than 34 sites and offices in 12 countries, we are one of the world's leading providers of ammunition and rocket motors for both military and civilian customers. **PRODUCT & SERVICES** Nammo's portfolio covers six main families of products: Small Caliber Ammunition Our extensive product range includes combat and premium projectiles, cartridge technology and commercial brands ranging from 4.6 mm to 12,7 ammunitions.

Our portfolio covers specialty ammunition such as multipurpose, armour piercing, frangible or long range, or well-known variants like regular ball, incendiary, tracer or Dim-Tracer, non-toxic or just training ammunition for use in both machine guns and sniper. **Medium Caliber Ammunition** Our wide product portfolio includes combat and training ammunition for army, navy and air force applications. We are especially proud of Nammo's programmable technology, allowing for extremely versatile capabilities in demanding and unpredictable scenarios. Other examples include armor piercing and multipurpose technology combined with regular High Explosive and training rounds. **Nammo catalogue** covers NATO calibers from 20mm to 57mm. **Large Caliber Ammunition** Nammo provides some of the world's most advanced- and hardest hitting – large caliber ammunition. While we are perhaps most known for our extended range artillery shells, we deliver a wide range of specialty products. Nammo's 155mm ammunition series is all about performance. The HE-ER projectile doubles conventional artillery range, rocket assisted artillery and Ramjet technologies will be able to reach further than any other 155mm product.

Nammo offers mortar grenades from 60mm to 120mm well-known by quality and reliability. **Aerospace Propulsion** With experience dating back to the late 1940s, Nammo is today one of the leading companies within design, development and production of solid rocket motors for air-to-air, surface-to-air and air-to-surface applications. As an example, Nammo provides the rocket motor for missiles like AMRAAM, EVOLVED SEA SPARROW MISSILE and IRIS-T Grenades, Warheads and Energetics In addition to ammunition and rocket motors, Nammo manufactures a wide range of sophisticated grenades, warheads and other specialist energetic components. **Complete family of Hand Grenades**, inclusive of the newest concept of scalable modules, systems for engineers like shock tube and breaching linear demolition charge and Aircraft ejector release cartridges. **REFERENCES** As a sign to Nammo's ability to deliver the best performing and most reliable solutions in the world's most advanced armed forces, more than 90% of our revenues come from Europe and North America.

# SHIPYARD OF SPECIAL FACILITIES LTD

## STAND 1241 | HALL C

**Put Supavla 21  
HR-21000 Split | CROATIA**

**Phone: +385 2139 2202  
[www.brodosplit.hr](http://www.brodosplit.hr)**

BRODOGRADILIŠTE SPECIJALNIH OBJEKATA d.o.o.  
SHIPYARD OF SPECIAL FACILITIES Ltd.

Shipyard of Special Facilities As a member of the Brodosplit Group, Shipyard of Special Facilities (BSO) is a company with a long tradition and one of the best known European specialized shipyards. The company develops, designs and builds naval vessels, submarines and passenger ships as a dominant program, as well as the most complex steel structures for infrastructure, transport, energy, process and general applications. BSO represents the technology transfer program and the naval program, especially projects the offshore patrol vessel - corvette OPV-C BIS91, the fast attack patrol vessel FAV250 and the coastal patrol vessel CPV-31 'Omiš' for the protection of internal marine waters and for combat and logistic support tasks, built for the Ministry of Defense of the Republic of Croatia for the needs of the Coast Guard of the Croatian Navy. The Coastal Patrol Vessel 'Omiš', built into the BSO, has significantly improved the capabilities of the Croatian Navy with its technical equipment and navigation characteristics. Therefore, the Coast Guard is also called upon for search and rescue operations with the CPV-31 'Omiš', which is equipped with an active stabilization system that enables the vessel to be fully operational in sea state 4 and meet the NATO criteria for seaworthiness (STANAG 4154), which proved to be a key capability in strong winds. The coastal patrol vessel 'Omiš' has full nuclear-biological-chemical protection and hermetic sealing capability, as well as a ship decontamination station. It also has a jet boat that is released from the ship while underway using a sled from the stern ramp and develops a speed of over 40 knots. The ship is equipped with high-resolution daytime cameras for detecting and tracking targets, a thermal imaging camera for detecting targets at long range and two binoculars for nighttime observation. To extinguish fires, the ship has a fire extinguishing system with a capacity of 1200 m<sup>3</sup>/h. The positioning of the special shipyard in the niche of naval ships, fast attack ships and unmanned special ships are the main objectives for the coming period.

BRODOGRADILIŠTE SPECIJALNIH OBJEKATA Član Brodosplit grupacije, Brodogradilište specijalnih objekata (BSO) tvrtka je duge i blistave tradicije, i jedno od najpoznatijih europskih brodogradilišta specijalne namjene. Tvrta razvija, projektira i gradi vojne brodove, podmornice i putničke brodove kao dominantni program, te najsloženije čelične konstrukcije za infrastrukturnu, prometnu, energetsku, procesnu i opću primjenu. BSO predstavlja program transfera tehnologija te vojni program, posebno projekte izvan obalnog ophodnog broda-korvete OOB-C BIS91, brzog napadajnog ophodnog broda FAV250 te obalno ophodni brod OOB-31 'Omiš' za zaštitu unutarnjih morskih voda te za zadaće borbene i logističke potpore, koji je izgrađen za naručitelja Ministarstvo obrane RH, za potrebe Obalne straže Hrvatske ratne mornarice. Obalno ophodni brod 'Omiš' izgrađen u BSO-u tehničkom je opremljenošću i plovnim karakteristikama znatno unaprijedio sposobnosti HRM-a. Posebno je efikasan u nepovoljnim vremenskim uvjetima, odnosno jakom vjetru i visokom moru, zbog čega se u akcijama traganja i spašavanja poziva i obalna straža s brodom OOB-31 "Omiš" koji je opremljen s aktivnim sustavom za stabilizaciju koji omogućuje brodu punu operativnost na stanju mora 4 te udovoljavanje NATO kriterijima za pomorstvenost (STANAG 4154), što se kod jakog vjetra pokazalo ključnom sposobnošću. Obalno ophodni brod 'Omiš' ima potpunu nuklearno-biološko-kemijsku zaštitu, mogućnost hermetičkog zatvaranja, a posjeduje i brodsku dekontaminacijsku stanicu. Posjeduje i jet-brodicu koji se saonicama s krmene rampe u vožnji ispušta iz broda, i razvija brzinu od 40+ čvorova. Brod je opremljen dnevnim kamerama visoke rezolucije za detekciju i praćenje ciljeva, termalnom kamerom za detekciju ciljeva na velikim udaljenostima te dvama dalekozorima za noćno motrenje. Za gašenje požara na drugom brodu ili na obali, na palubi kormilarnice ugrađen je vatrogasni top kapaciteta 1250 l/min i dometa 45 m. Pozicioniranje BSO-a u niši patrolnih brodova, brzih napadnih brodova i besposadnih brodova posebne namjene glavni su ciljevi za nadolazeće razdoblje.

Manufacturer of industrial and military air filtration units situated in Czech Republic (Chrastava, Liberec region).

The company has been operating as Vzduchotechnik since 1992, but is known under the name «Liberecké Vzduchotechnické Závody» since 1950.

In past the company manufactured full range of gas tight air filtration systems for civilian and military shelters, including CBRN filters and blast protection accessories.

The modernized type of this equipment has been launched in January 2023, and obtained all necessary approvals for use in military structures. The core CBRN filtration unit has been certified by NATO.

Proizvođač industrijskih i vojnih jedinica za filtriranje zraka smještenih u Češkoj Republici (Chrastava, liberec regija).

Tvrta posluje kao Vzduchotechnik od 1992. godine, ali je poznata pod imenom «Liberecké Vzduchotechnické Závody» od 1950. godine.

U prošlosti je tvrtka proizvodila cijeli niz plinskih sustava za filtriranje zraka za civilna i vojna skloništa, uključujući CBRN filtre i pribor za zaštitu od eksplozija.

Modernizirani tip ove opreme lansiran je u siječnju 2023. godine i dobio je sva potrebna odobrenja za uporabu u vojnim strukturama. Osnovna CBRN filtracijska jedinica certificirana je od strane NATO-a.
